

Extra slim foams (18mm) manufactured free of dust particles. With rounded angled sides to reduce swirl marks.

- ✓ Designed for DA and rotary machines.
- ✓ Exceptional control
- ✓ Faster results
- ✓ Great for tight corners

Hard working foams with a firm 10mm PU foam layer to stop compound getting sucked too deep into the foam, reducing clogging, swirl marks and waste of liquid.

- ✓ Designed for DA and rotary machines
- ✓ Long lasting
- ✓ Even pressure
- ✓ McLaren approved
